— WHO WE ARE

About Blue Radiance

Blue Radiance Marine Company is a Saudi-registered marine services provider headquartered in Al Khobar. Our core business is **vessel chartering and vessel management** — supplying offshore support vessels to owners, operators and contractors, and operating them under full technical, crewing and compliance responsibility.

Around that core we deliver offshore construction & commissioning support, marine procurement, equipment supply, skilled offshore manpower and marine support services — contracted as one accountable scope or as individual work packages.

We operate from the Eastern Province, the centre of the Kingdom's marine and energy activity, within reach of Dammam, Ras Tanura, Jubail and the offshore fields of the Arabian Gulf. Our operations team is available around the clock.

Vessels, crews and equipment managed to standard — so our clients' operations continue safely and on schedule.

— OUR DIRECTION

Vision, Mission & Values

Vision

To be a dependable, professionally managed provider of chartered and managed offshore vessels in the Kingdom — setting consistent standards in operational quality, safety performance and client service, and supporting Saudi Arabia's maritime growth in line with Vision 2030.

Mission

To charter, operate and manage vessels — and to supply the crews, equipment and materials around them — safely, efficiently and transparently, with 24/7 responsiveness and disciplined reporting on every engagement.

Values

Integrity, safety and reliability guide every engagement. We operate transparently, respect our commitments, and shape responsive, client-centred solutions around each operation we support.

— OUR COMPETITIVE EDGE

Why Choose Blue Radiance

01 Chartering & Management at the Core

Vessel chartering and full vessel management, supported by construction, procurement, equipment and manpower under one contract.

02 24/7 Operational Support

Continuous coordination and rapid response for offshore and maritime operational requirements.

03 Safety-First Culture

Safety and operational excellence remain our highest priority across every activity we support.

04 Strategic Eastern Province Base

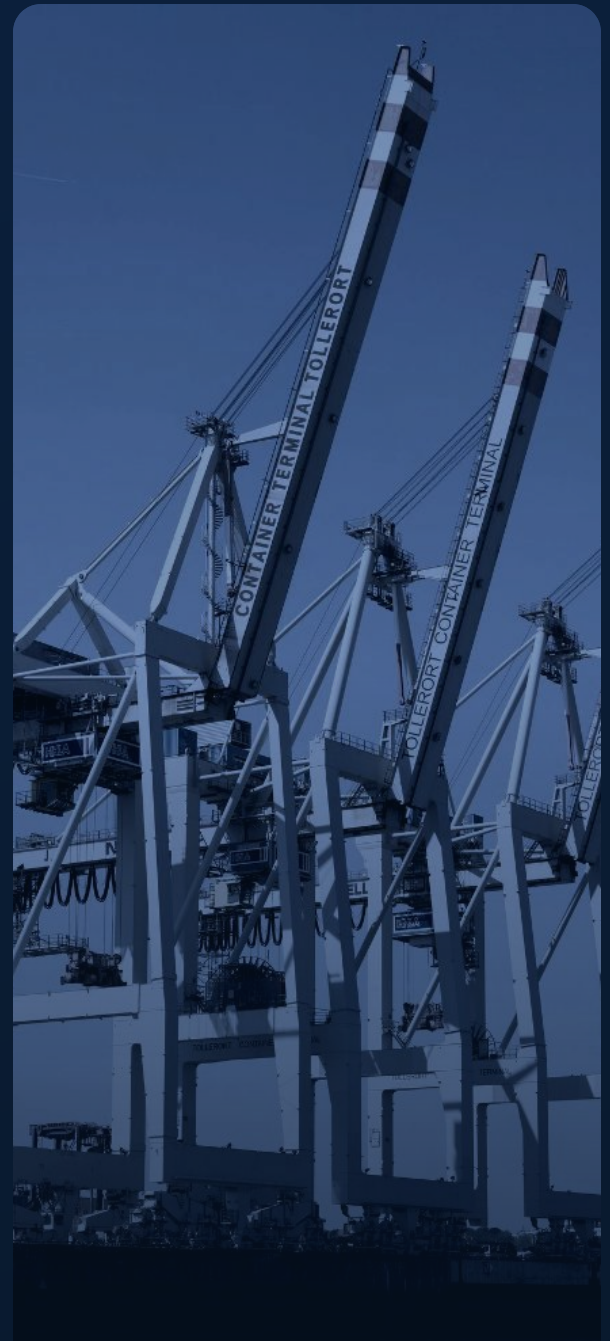

Headquartered in Al Khobar, close to the Kingdom's key ports, industrial zones and offshore activity.

05 Professional, Experienced Team

Dedicated marine professionals focused on reliable, efficient and transparent service delivery.

06 Client-Centred & Flexible

Tailored operational solutions and responsive support shaped around each client's requirements.

— WHAT WE DO

Our Services

Five integrated service lines built around vessel chartering and management — extending through construction, procurement, equipment and personnel.

- 01

Vessel Chartering & Management
Time, bareboat and spot charter, with technical, crew and marine management.

PAGE
07
- 02

Offshore Construction & Commissioning
Hook-up, installation and commissioning support, plus onshore EPC works.

PAGE
08
- 03

Marine Procurement
Marine materials, machinery spares and contingency procurement support.

PAGE
09
- 04

Equipment Supply
Cranes, generators, welding machines, compressors and test instruments.

PAGE
10
- 05

Offshore Construction Personnel
Certified welders, riggers, operators, QC inspectors and HSE crew.

PAGE
11

Each service is detailed on the following pages — one accountable partner, end to end.

— SERVICE 01

Vessel Chartering & Vessel Management

Offshore support vessels supplied on charter and operated under full management — crewed, maintained, certified and coordinated to the requirements of the work.

— CHARTER TYPES

- ✓ Time charter
- ✓ Spot & short-term charter
- ✓ Platform supply vessel (PSV) charter
- ✓ AHTS & tug charter
- ✓ Bareboat charter
- ✓ Crew boat charter
- ✓ Offshore support vessel charter
- ✓ Barge & workboat charter

— VESSEL MANAGEMENT

OPERATIONS

Vessel Operations & Technical Management

Day-to-day operation, technical management and planned maintenance of the vessel.

CREW

Crew Management & Marine Compliance

Crewing, certification, and compliance with flag, class and client requirements.

VOYAGE

Voyage, Fleet & Offshore Logistics

Voyage planning, fleet coordination, mobilisation, demobilisation and offshore logistics.

Chartered or fully managed, the vessel stays our responsibility until the scope is complete.

— SERVICE 02

Offshore Construction & Commissioning

02

— OFFSHORE CONSTRUCTION VESSEL & FPSO

Project management and site support for offshore and onshore construction and commissioning — crews, equipment and supervision mobilised to the work front and managed to programme.

— WHAT WE DELIVER

- ✓ Offshore hook-up & commissioning
- ✓ Onshore EPC — construction & modification
- ✓ QC inspectors, scaffolders & riggers
- ✓ Installation of offshore facilities
- ✓ Construction & maintenance crews
- ✓ Tools & equipment provided

— HOW WE EXECUTE — END TO END

STEP 01

Plan

Scope, method statement and schedule agreed with the client.

STEP 02

Mobilise

Crews, tools and equipment mobilised to site or vessel.

STEP 03

Execute

Supervised execution with round-the-clock operational oversight.

STEP 04

Hand Over

Commissioning support, documentation and close-out.

From hook-up to commissioning, managed with the crews, tools and oversight the scope requires.

— SERVICE 03

Marine Procurement

Procurement support for offshore and marine operations — sourcing materials, spares and contingency items through a vetted supplier network.

03

KSA + INTL

VETTED SUPPLIER NETWORK

24/7

URGENT REQUISITIONS

FULL

CERTIFICATION & RECORDS

— WHAT WE DELIVER

- ✓ Marine general materials & spares
- ✓ Contingency procurement for projects
- ✓ Third-party services coordination
- ✓ Spares for marine machinery
- ✓ Vetted local & international suppliers
- ✓ Contracts & procurement management

— HOW WE PROCURE — END TO END

STEP 01

Requirement

Scope, specification and delivery window confirmed with the client.

STEP 02

Source

Vetted local and international suppliers quoted and evaluated.

STEP 03

Assure

Inspection, certification and documentation verified before release.

STEP 04

Deliver

Coordinated delivery to port, vessel, yard or offshore location.

Inspected and documented. Material is released against specification, with the inspection and certification records the scope requires.

SERVICE 04

Equipment Supply

Marine and offshore construction equipment supplied to site, vessel or yard — maintained, certified and ready for use when the programme calls for it.

06+

EQUIPMENT CATEGORIES

24/7

MOBILISATION SUPPORT

100%

SUPPLIED TO REQUEST

WHAT WE SUPPLY

Cranes & lifting equipment

Generators & engines

Welding machines & compressors

Testing equipment & instruments

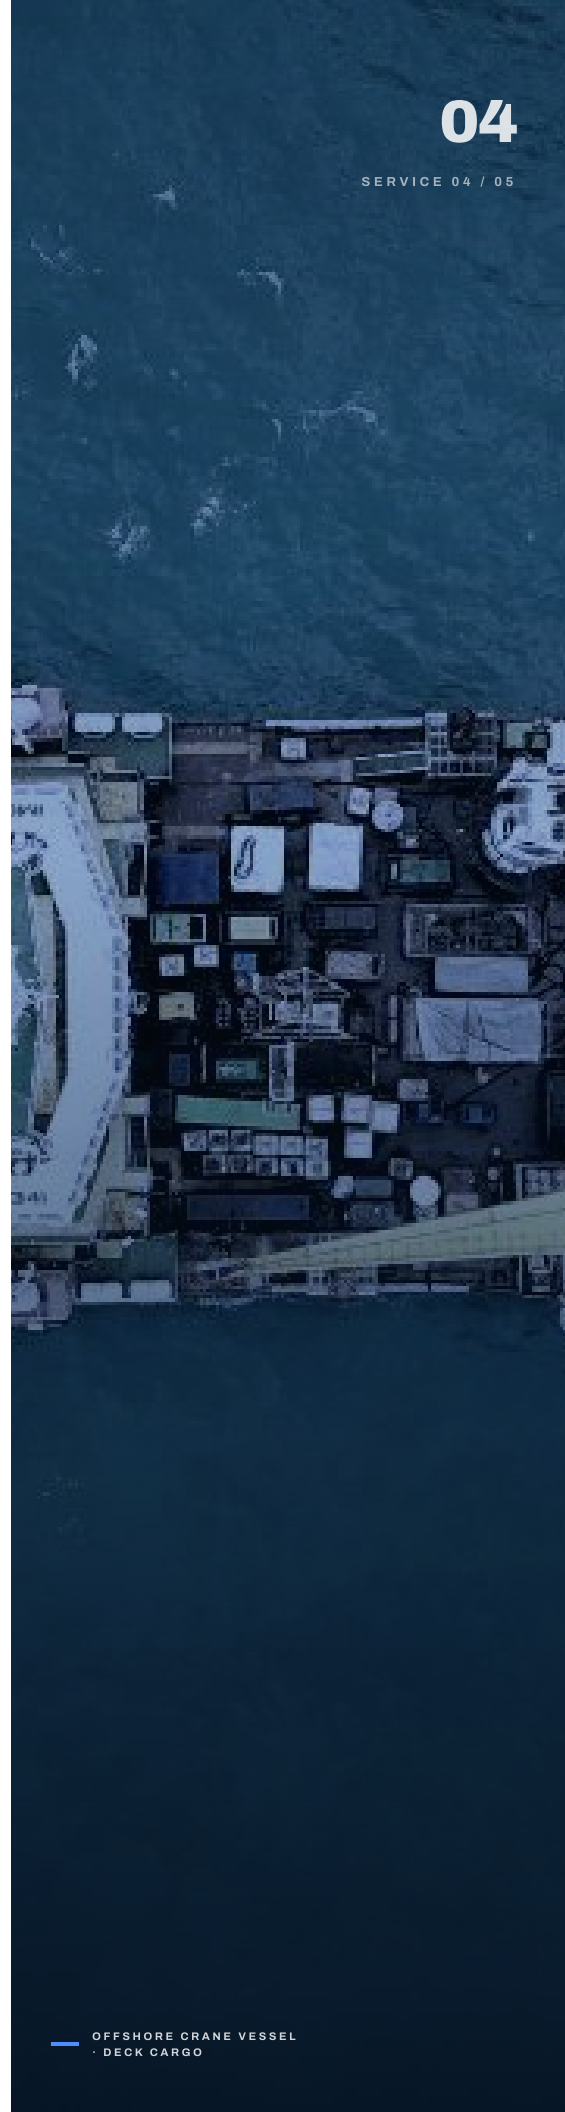

Boats & related equipment

Other tools & equipment on request

Maintained and certified equipment, supplied with the documentation your site standards require.

SERVICE 05

Offshore Construction Personnel

Certified offshore and marine construction personnel, mobilised to your requirements and schedule.

05

SITE CREW · PPE BRIEFING

Construction Trades

Qualified offshore construction crews mobilised with the certification your scope requires.

- ✓ Welders & fabricators
- ✓ Riggers & scaffolders
- ✓ Crane & heavy-equipment operators
- ✓ Marine & offshore support crew

Inspection, Safety & Support

Inspection, safety and support trades supporting execution and close-out.

- ✓ QC inspectors & HSE officers
- ✓ Sand blasters, painters & electricians
- ✓ Competency & certification verification
- ✓ Mobilisation & demobilisation to schedule

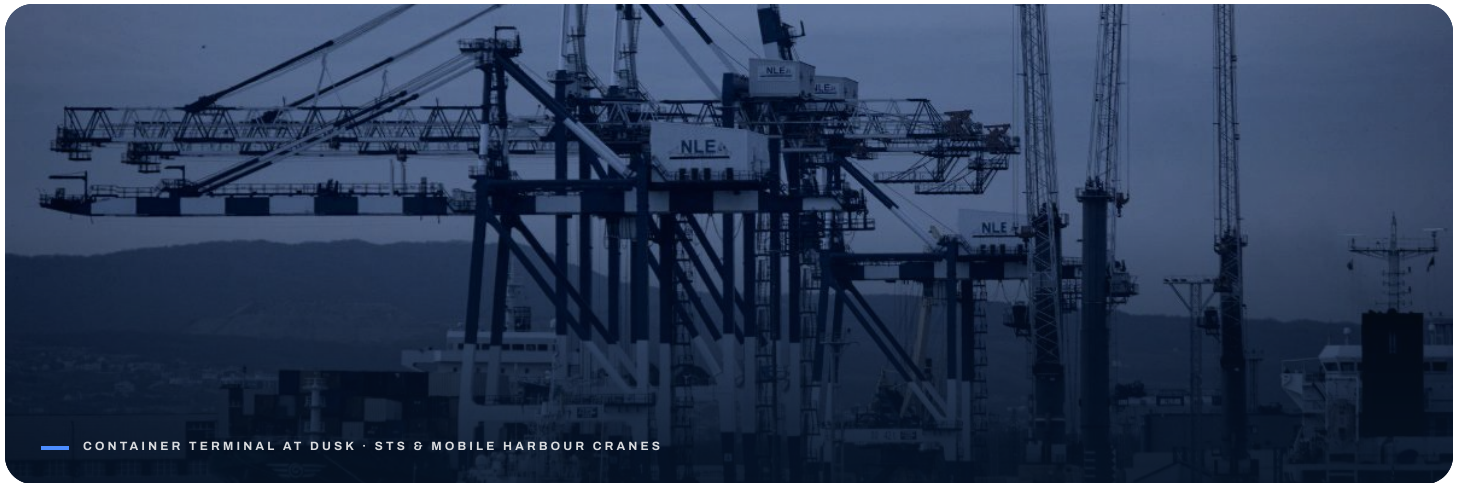

Mobilised to schedule. Personnel are supplied with the certification, PPE and documentation your site and client requirements demand.

— CLIENTS & SECTORS

Sectors We Serve

Blue Radiance supports shipowners, offshore operators and industrial clients with chartered and managed vessels, professional operational coordination and dependable marine services.

- | | |
|---|---|
| ✓ Shipowners & vessel operators | ✓ Offshore drilling & energy companies |
| ✓ EPC contractors & industrial projects | ✓ Oil & gas sector stakeholders |
| ✓ Port authorities & terminal operators | ✓ Logistics & freight-forwarding partners |
| ✓ Marine construction & engineering firms | ✓ Ship management & procurement agencies |

Our network and operational partners extend our reach in vessel supply, offshore support, crew movement and specialised marine logistics.

— HEALTH · SAFETY · ENVIRONMENT

Health, Safety & Environment

Safe operations are good operations. Our HSE approach is built around prevention, clear responsibility and continuous improvement — protecting people, assets and the marine environment.

Safety as Our First Priority

Safety and operational excellence remain the highest priority across every activity we coordinate, on shore and offshore.

Prevention & Preparedness

A safety-first mindset, careful planning and round-the-clock oversight help us anticipate risk and respond quickly.

Environmental Responsibility

We minimise the environmental impact of our operations and align our practices with responsible maritime conduct.

People & Competence

Skilled, briefed and accountable marine professionals are central to safe, dependable delivery on every engagement.

Our HSE Commitments

- ✓ Safety-first culture across every operation
- ✓ 24/7 operational oversight and rapid response
- ✓ Incident review & lessons-learned to prevent recurrence
- ✓ Careful planning & risk awareness before execution
- ✓ Compliance with client HSE requirements
- ✓ Environmentally responsible operating practices

— QUALITY & COMPLIANCE

07

Quality & Compliance

Dependable service comes from disciplined processes. We operate with a compliance-focused approach, transparent communication and a commitment to delivering accurate, reliable results.

— HOW WE ASSURE QUALITY

01

Compliance-Focused

Operating approach aligned with recognised maritime good practice and client requirements.

02

Structured Processes

Clear procedures and defined responsibilities so every movement is handled to standard.

03

Transparent Reporting

Accurate reporting keeps shipowners and operators informed at every stage.

04

Continuous Improvement

Performance reviewed and processes refined — improving reliability over time.

— ENGINEERING REVIEW · TECHNICAL DRAWINGS TO ISO 128

Certifications. Blue Radiance operates in line with maritime good practice. Formal management-system certifications (e.g. ISO) will be added to this profile as they are obtained — a dedicated certifications section will present each standard and scope.
